If you’re training physicians on AIDET, you might share some data like this:

**Figure 5.1**

**UAB Improves Patient Perception of Doctor Care**

![Graph showing improvement in patient perception of doctor care.]

*University of Alabama Birmingham; discharge data*

By validating the use of AIDET and making individual physician data transparent, the University of Alabama at Birmingham Hospital in Birmingham, AL, improved overall patient perception of doctor care from the 13th to the 86th percentile.
