CHRISTIANE LEVINE, RN, BSN, BS

Speaker Press Kit

INSPIRATION AND INNOVATION FROM EXPERIENCED HEALTHCARE SPEAKERS

Providing on-site training for your leaders is a fast and economical way to bring your entire team up-to-speed on the industry’s hottest topics and create organization-wide urgency to execute change. Studer Group’s speakers and authors bring up-to-the-minute knowledge from their work in healthcare organizations across the U.S. and beyond. We’re more than a speaker’s bureau.

Our speakers are results-driven performance experts who are directly involved in crafting solutions to some of our most pressing problems including financial challenges, patient safety & quality, pay for performance, and more. Prior to your event, Studer Group speakers and our support team work side-by-side with you to develop a fully customized presentation to meet your needs, regardless of the topic, size of your group or purpose of the training. From Physician retreats to Leadership Development Institutes (LDIs) to Senior Leader meetings, Studer Group speakers deliver the perfect balance of inspiration and education for every audience.
Christiane Levine, RN, BSN, BS

NATIONAL SPEAKER

Known nationally for her work designing Rapid Response Systems and helping prevent patient deterioration, Christiane has assisted multiple organizations around the world solve their barriers to delivering safe and effective care. Her voice is candid and translates to all levels of an organization through story telling and research. As an RN with over 12 years’ experience in patient safety and process improvement, she has a unique line of sight to the stages of the patient journey, staff experience, and organizational response to safety and quality.

PROFESSIONAL EXPERIENCE
Prior to joining Huron Consulting, Christiane worked at a private healthcare consulting firm, implementing Lean Daily Management System (LDMS) in 5 hospitals as well as developing nursing leadership curriculum and leading rapid cycle process improvements. Prior to that, Christiane led quality and process improvement at two different healthcare systems. She received her Six Sigma Black Belt from Georgia Tech and uses her experience as a nurse, and skills in process improvement to put patients and staff in the middle of every solution.

SECOND VICTIM: CARING FOR THE CAREGIVER

Audience: Healthcare leaders and administrators
Focus: Understanding

An event has happened. The error has been disclosed to the family and the root cause analysis is under way…but it feels like something is missing. In our efforts to be highly reliable organizations for our patients and communities, we often overlook the staff who are involved in an adverse event—the second victims. This session will discuss the event process from the view of the second victim, help you understand the ramifications to the staff, and give you resources to begin formulating your care for your staff after an event and beyond.

Learning Objectives:

+ Define the second victim
+ Articulate the six stages of Second Victim Syndrome
+ Identify second victims in your organization
+ List three things you can do tomorrow to support second victims in your organization
